GoChords.com

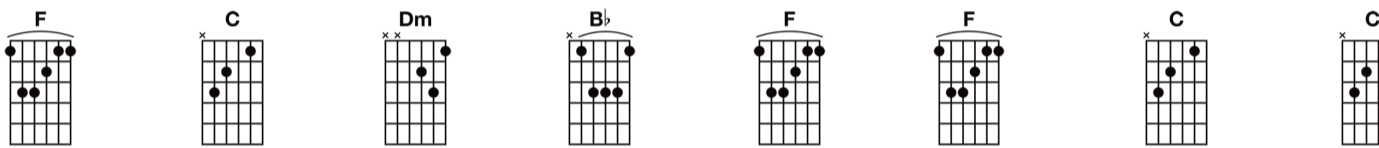

Intro

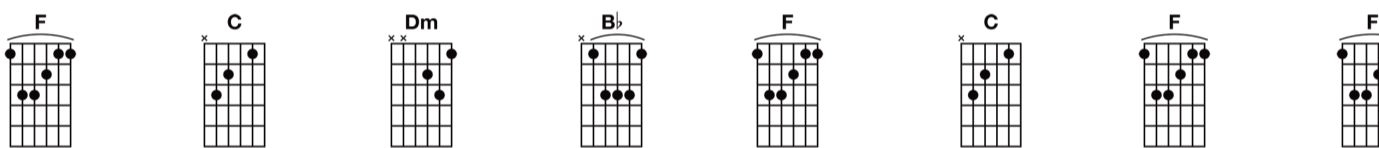

I saw you standing in the sweet moonlight, birds of paradise watching moths take flight

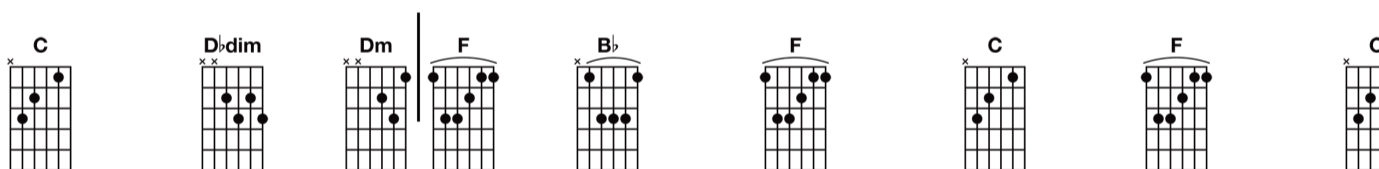

Stars in the heavens, brightly weaving their spell that night, a shimmering, glimmering beautiful sight

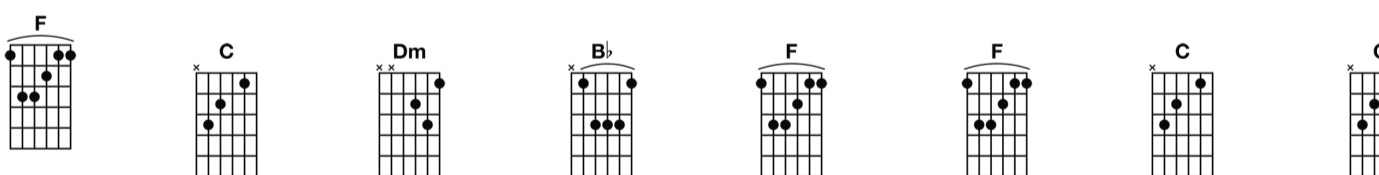

I was a witness to the grace of a guiding light, dancing above us; I wish I may, I wish I might

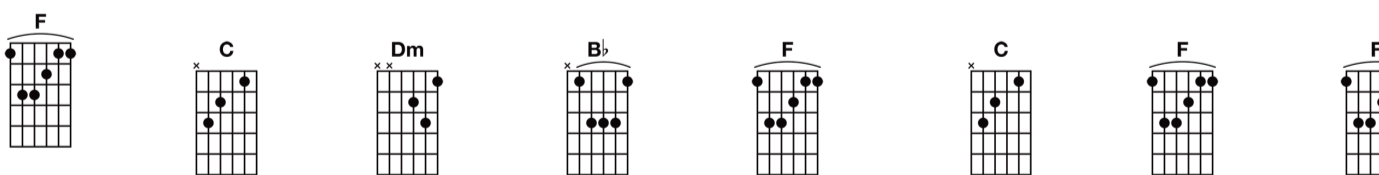

Nothing between us but the wind and the leaves, so bright, coloring winter in your eyes

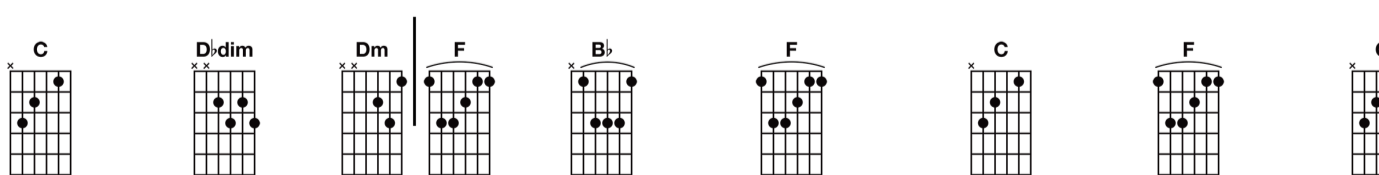

Refrain: And I know now, and I know forever, beautiful sweet moonlight
