(ACAPELLA) Big, fat moon in the sky (under the big fat moon)

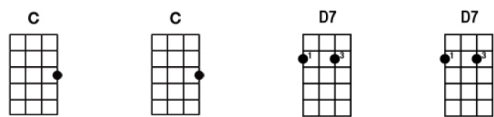

Under the big fat moon, anything can happen. I should know, not long ago, I took a little walk below the

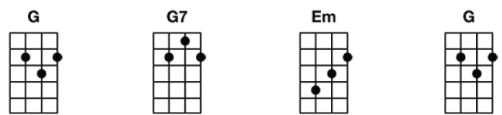

Big fat moon, where everything is likely,

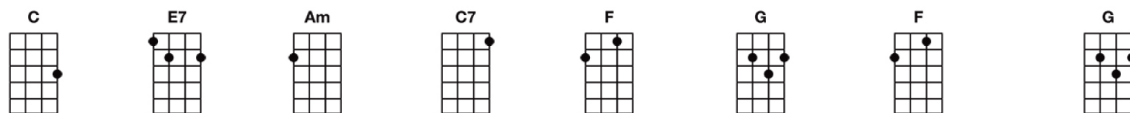

because that big fat face, grinning down from space, got me making goo-goo eyes all over the place.

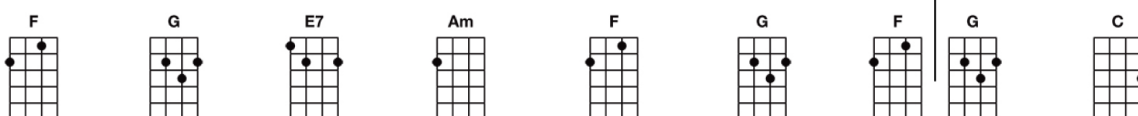

I didn't understand what this lunacy could be

I tried astrology, cosmology, anomalies still get to me, and after all of that, it's still a looney lunar mystery to me

Under the moon, under the moon, under the moon, under the moon, under the moon, doo-doo-doo

Big fat moon (under the) Big fat moon, Under the big fat moon is where I fell in love with you
